INTERAVIA

Review of World Aviation

INDEX TO VOLUME XII - 1957

No. 1 Beyond the Speed of Sound
No. 2 Into Battle by Air
No. 3 Europe, the Third Force
No. 4 Air Transport: New Vistas are Opening
No. 5 22nd Paris Air Show — Preview
No. 6 Policing the Skyways Spotlights on American Industry

No. 7 Fourteen Countries at Le Bourget Executive Aircraft
No. 8 Guided Missiles 1957 America Discovers the Caravelle
No. 9 Business as Usual: Farnborough 1957 — I.A.T.A. Madrid
No. 10 Close-up of Farnborough and Madrid The Powerplant Scene
No. 11 Global Air Power The U.S.A.F.'s Golden Anniversary
No. 12 Dawn of the Space Age

GENERAL SUBJECTS

INDEX BY SUBJECTS:

The first number after each title refers to the issue, the second number to the page

International Organizations

I.C.A.O.

I.C.A.O.'s Jet Age Task Force: 1/67
I.C.A.O. and the Jet Age — L. Boussard: 10/1057

I.A.T.A.

We "IATAns" are the First World Citizens — W. Deswarte: 6/593
The Role of the Traffic Conferences — J. Brancker: 9/899
Pillars of World Air Transport: 9/903
The I.A.T.A. 13th Annual General Meeting in Madrid: 10/1053

The International Geophysical Year: 8/821
Russia's Contributions to the Geophysical Year: 12/1234

Political

Egypt 1956: A "Textbook" War: 1/53
Situation Report from Bonn: 1/66
General—but One-Sided Disarmament: 1/64
Wilson's Edict; Clarifying Service Roles: 2/128
Is Europe Played Out?: 3/195
Europe's Defence Demands Political Unity — "Miles": 3/199
The Road to Integration — G. Caron: 3/232
U.S. Air Power in the Cross-Fire of the Symington Committee: 4/322
The British White Paper and the Arms Industry — P. M. Gallois: 5/453
New Men in the Pentagon: 5/469
The White Paper on Defence — A British View — D. H. Wood: 6/597
Two Years after the Restoration of Air Sovereignty (Germany) — W. Eberhard: 6/600
Three Countries, Three Policies — J. Calmel: 8/779
Business as Usual: 9/871
Interavia Interview with General J. Kammhuber: 9/908
"Los mismos perros con distintos collares": 10/997
The U.S.A.F. Still Holds the Trumps — P. M. Gallois: 11/1133
Cold War is the Father of Many things: 12/1225
Ballistic Missiles will be Political Weapons — P.M. Gallois: 12/1251
The Case for European Federation — P. E. Taviani: 12/1257

Air Transportation

Europe's Air Transport Needs a Change of Heart — L. de Azcárraga: 3/214
European Air Transport is Indivisible — M. Hymans: 3/219
There is no Need for Panic about the Jet Transport Age — Sir W. P. Hildred: 4/293
European Air Transport — B. Björkman: 4/297
U.S. Airlines Anticipate Mass Travel by Turbine Aircraft — S. G. Tipton: 4/299
Stalking from Brussels to Paris: 4/320
Air Transport Inventory for the Jet Age: 4/341
A New Home for the Netherlands Government Civil Flying School — H. A. Jansen: 7/716
Air Transport Fixes and Headings: 5/443; 7/722
The Transport Aircraft Situation — P. W. Brooks: 9/885
No Jet Age without International Cooperation — Sir W. P. Hildred: 9/899
The New Generation of Commercial Transports: 9/913
Aeroflot Springs a Surprise: 9/914
Deutsche Lufthansa Forges Ahead: 9/856
European Common Market and Air Transport: 10/1058
International Airworthiness — R. E. Hardingham: 10/988
British Airline Fleet Programmes: 11/1104
Medium-Stage Airliners Galore: 12/1208

Service Aviation

The Impact of High Speeds on Conventional Strategy — "Miles": 1/30
In the Service of Mars and Mercury: The Coming Air Cargo Fleets: 2/101
Military Air Transport within Atomic Strategy — "Miles": 2/102
M.A.T.S. — At the Service of All: 2/114
"Operation Power Flight": 3/234
World Air Power No. 4 (Sweden): 4/331
British Service Aviation Trends — D. H. Wood: 9/882
All-Through Jet Training — A. N. Kingwill: 9/883
Interavia Interview with General G. Kammhuber: 9/908
Lighter, Slower, Cheaper...; N.A.T.O.'s Light Strike Fighter Programme — P. M. Gallois: 9/893
Golden Jubilee of the American Air Force: 11/1113
Organization of the United States Air Force: 11/1116
Sword, Shield...and a Mailed Fist: 11/1118
On N.A.T.O.'s Southern Flank — C. Corddry: 11/1126
The U.S.A.F. Still Holds the Trumps — P. M. Gallois: 11/1133
America's Weapons for Tomorrow: 11/1136
Global Logistics: 11/1138
The Distaff Side: 11/1149
Four Stars in every Survival Kit: 11/1150
Some Problems of the Future — C. R. Tosti: 11/1163

Ground Organization

Future Airport Requirements — J. T. Pyle: 4/295
The Boucher Fog Dispersal System: 4/339
New York's Airports Prepare for the Jet Age — J. H. Winchester: 9/896

Research, Production and Industry

Open Ejection Seat at Supersonic Speeds: The Lockheed Model D Ejection Seat — R. J. Turner: 2/132
Aeroplastics — Lt. Col. F. Fiorio: 2/148
"Made in Europe": 3/207
Interview with Admiral Sir Matthew Slattery: 3/222
Tackling Advanced Engineering Problems on a European Scale: 3/224
Europe's Aircraft Production Potential — G. Héreil: 3/226
European Aircraft Industry and Germany — L. Brandt: 3/231
European Aeronautical Research — H. Blenk: 3/239
The Equipment Industry within the Framework of Western Europe — R. Lucien: 3/241
The Ouest-Sud Est Aviation Merger — G. Héreil: 3/242
Towards the Supersonic Airliner: 4/317
Tour of the French Aircraft Industry — E. Baur: 5/398
An A.B.C. of the French Accessories and Equipment Industry: 5/403
Lockheed's Silver Jubilee: 6/582
General Dynamics Reports Record Results — but Loses its Founder: 6/584
False Start Makes a Winner (Bendix Aviation Corporation): 6/573
Visit to Cascina Costa (Giovanni Agusta): 8/815
Five Men in a Shack (Rocketdyne): 8/805
Britain's Aircraft Industry in 1957—E. Baur: 9/872
Motive Power for Half the World—United Aircraft Corporation: 10/1037
Some Problems of the Future—C. R. Tosti: 11/1163
The Analog Computer in the Aircraft Industry—B. Murphy: 12/1273

Navigation - Radar - Aviation Electronics

Recent Products of the French Telecommunications and Electronics Industry: 5/411
Synchronous Communications—J. P. Costas: 5/473
A New Method of Geological Survey: 5/475
ARC Type 21 Automatic Direction Finder: 5/476
New VHF Transmitter-Receiver to Ease Air Communication Problem—P. O. Momenteller: 5/478
The Bottleneck: Air Traffic Control—A. Fischer: 6/549
TACAN Combines Accurate Navigation with Strict Airspace Control: 6/553
Barrack Square Discipline over the North Atlantic: 6/561
An Automatic Landing System: 6/563
Radar for Air Traffic Control and Navigation: 6/564
Buying Time—U.S. and Canadian Radar Warning Chains—C. Corddry: 6/566
Inertial Navigation—N. F. Parker & C. P. Greening: 6/575
Argus Eyes and Electronic Brains Protect the North American Continent—K. Bolliger: 6/578
The Need for Automatic Air Traffic Control Systems—A. Martienssen: 6/601
The Ryan Firebee Control System—F. Warren & C. Corden: 9/932
Radio-Mailles Navigation System: 9/936
British Ground Radio and Radar Aids: 10/1060
Doppler Navigation—W. J. Tull: 11/1166

Aircraft

Commercial Aircraft:

Supersonic Vehicle of Commerce: Supersonic Weapon of War—J. W. Crowley: 1/46
The Armstrong Whitworth 650 Freightliner: 2/145
The Short P.D. 16 Project: 2/146
Flying the Boeing 707 Jet Transport—A. M. Johnston: 4/305
Flight Testing the Caravelle: 4/308
A Pilot's Impressions of the Friendship—L. W. Killen: 4/310
The Lockheed Electra: 4/311
Aviation Traders ATL. 90 Accountant: 6/594
Executive Aircraft in 1957: 7/700
The Caravelle Tours the Americas—R. Blanchet: 8/810
The Douglas DC-8 Makes Good Progress: 9/931

Military Aircraft

A Revolutionary Design—Convair B-58 Hustler: 1/33
The U.S.A.F.'s Century Series of Supersonic Fighters: 1/37
European Supersonic Aircraft: 1/42
Macchi MB.326: 1/65
The West's Military Transports: 2/108
The Red Army's Air Transport Fleet: 2/112
Rotary Wing Transports in West and East: 2/113
Lockheed C-130A Hercules: 2/125
The C-132 Super Transport: 4/324
The Dornier Do 27 Multi-Purpose Aircraft: 7/707
Flying the Atar Volant—A. Morel: 7/713
The Ryan X-13: 8/816
The Bell X-14: 8/817
All-Through Jet Training (Hunting Percival Jet Provost) —A. N. Kingwill: 9/883
The Avro CF-105 Arrow: 12/1261

Powerplants

The Tupolev Bear's Propeller Turbines—F. Brandner: 4/337
The Bristol Orpheus Turbojet: 7/721
The Paris Engine Fair: 7/678
Aircraft Rocket Engine Oxidants—W.N. Neat: 9/929
Fundamentals of Spark Plug Design: 9/938
The Turbine Engine Position in 1957: 10/1021
Borane High Energy Fuels: 10/1023
Production of a Turbojet (Rolls-Royce) 10/1024
The Power for Supersonic Flight: : 10/1026

Guided Missiles, Rocketry and Astronautics

The Surface-to-Surface Missile, Today and Yesterday—F. I. Ordway: 1/49, 2/134
Top Priority for the I.C.B.M.: 4/329
Open Market for Guided Missiles (Paris): 7/697
Some Observations on Guided Missiles—Th. von Kármán: 8/777
The Rocket Comes of Age—W. von Braun: 8/789
Looking Forward—M. I. Peale: 8/791
Missiles at the Paris Show—M. Decker: 8/792
The West's Guided Missiles: 8/795
Rocket Propulsion Units—Vernet-Lozet: 8/799
Solid Propellant Rocketry—J. K. Elder: 8/801
Five Men in a Shack (Rocketdyne): 8/805
Air-to-Air Rocket Weapons—F. I. Ordway: 8/806
Britain's Guided Weapons—D. H. Wood: 8/808
The Centenary of the First Space Rocket Researcher; Konstantin E. Ziolkovski: 9/856
Guided Missile Sensation at Farnborough: 10/1003
More or Less Seriously...—Th. von Kármán: 12/1227
The New Dimension: 12/1229
The 8th International Astronautical Congress in Barcelona: 12/1236
Red Square Rocket Parade: 12/1240
Placing the Vanguard Satellite in Orbit—J. P. Hagen: 12/1245
Aircraft Carrier versus I.C.B.M.—P. Barjot: 12/1258

Exhibitions and Congresses

Paris 1957

Why Paris?: 5/395
A Half Century in the Service of Aviation—A. Granet: 5/396
With Pencil and Cognac Bottle at Le Bourget: 5/397
British and Canadian Exhibits: 5/421
Italy's Contribution: 5/425
America's Representatives: 5/437
Old and New Exhibitors from West and East Europe: 5/439
Paris was Almost too Hospitable: 7/665
Public Flying Display at Le Bourget: 7/666
France's Contributions Range from Supersonic to Bush Aircraft—"Miles": 7/675
The Paris Engine Fair: 7/678
The Equipment Industry at the Salon: 7/685
Open Market for Guided Missiles: 7/697
Le Bourget Model Gallery: 7/699
Paris Sidelights: 7/648
Missiles at the Paris Show—M. Decker: 8/792

Farnborough 1957

Manufacturers' Programmes: 9/845
Britain's Aircraft Industry in 1957—E. Baur: 9/872
British Service Aviation Trends—D. H. Wood: 9/882
The Transport Aircraft Situation—P. W. Brooks: 9/885
Shopwindow for British Civil and Military Production: 10/998
Guided Missile Sensation at Farnborough: 10/1003
An Under-Estimated Farnborough?—"Miles": 10/1004
First Impressions of the Equipment Exhibition: 10/1009
Avionics at Farnborough: 10/1012
The Annual Congress of W.G.L. and D.V.L. in Essen: 5/471
International Congress of Aeronautical Sciences—J. Jarry: 8/823
Flying Equipment at the Brno Engineering Exhibition: 10/977
Czechoslovak Mosaic—E. Baur: 12/1264
The 8th International Astronautical Congress in Barcelona: 12/1236
INTERKAMA Congress and Exhibition: 12/1268

Aviation Finance

Wall Street Considers the Aircraft Industry a Safe Risk: 3/246
New York Finance Notes—S. Hershey: Monthly from No. 6

Supersonics

Flight at Supersonic Speed—Revolution or Evolution?: 1/27
Supersonic Strategy—Brig. Gen. Dale O. Smith: 1/28
The U.S.A.F.'s Century Series of Supersonic Fighters: 1/37
European Supersonic Aircraft: 1/42
Technical Problems of Supersonic Flight: 1/43
Supersonic Vehicle of Commerce... Supersonic Weapon of War—J. W. Crowley: 1/46
The Medical Problems of Supersonic Flight—H. Strughold & S. J. Gerathewohl: 1/61
Baling Out at High Flying Speeds—J. Martin: 1/52

Miscellaneous

The Air Hostess Told Us: 5/479
Air Travellers in Search of an Hotel: 10/1015
Bridgehead in Space—Simons' Balloon Ascent—O.C. Winzen: 10/1040
Seven Weeks in America—H. Rieck: 11/1154
Czechoslovak Mosaic—E. Baur: 12/1264
